Artur Lescher - esculturas

13 November 2021 - 8 January 2022

On **November 13th**, at **4PM** at Kubikgallery (Rua da Restauração nº6, Porto) opens the exhibition "**Artur Lescher - esculturas**" by **Artur Lescher**.

For over thirty years, Lescher has presented a solid work as a sculptor, which results from research into the articulation of materials, thoughts and forms. In this sense, the artist has an uninterrupted and precise dialogue with the architectural space and project and the choice of materials (which can be metal, stone, wood, felt, salts, brass and copper) are fundamental elements to highlight the power of that speech. Even though Lescher's work is strongly linked to industrial processes, presenting extreme refinement and rigor, his production does not have that sole purpose, in fact, it goes beyond. This contradiction opens the way for myth and imagination, essential elements for the construction of his Minimal Landscape.
