

Felipe Cohen

Sistemas para o poente

17 September - 5 November 2022

On **September 17th** at **4PM** at Kubikgallery (Rua da Restauração nº6, Porto) opens the exhibition "***Sistemas para o poente***" by **Felipe Cohen**.

In "*Sistemas para o poente*", Felipe Cohen presents a set of paintings from the series "Pálpebras" and two shop windows. The exhibition seeks to work on the phenomenon of reflection as an element that is both constructive and symbolic. In the paintings, this happens from the articulation of circular shapes with horizontal lines that cross them, suggesting different spatial possibilities of sunset landscapes. In the windows, reflection enters as a ghostly element that relates to concrete shapes and spaces, creating spatial situations that suggest different states of the materials that constitute them.

ESPAÇO CAMA (São Paulo, Brasil)

Felipe Cohen (1976, São Paulo, Brasil)

Felipe Cohen's practice develops from the tension between traditional and contemporary forms of entertainment the artistic object and from the study and rescue of recurring problems in the history of art of reinterpreting and updating its meanings in the present. This combination of means of articulating materials occurs between nobles and objects, thus, the more they are forced to do so by paradoxes, the more common of all classical types and genres in a dialectical process.

Graduated in Drawing and Sculpture from Fundação Armando Álvares Penteado, São Paulo, SP, presented at Galeria Millan, São Paulo, SP (2013, 2016 and 2019); at Kubikgallery, Porto, Portugal (2017); Arco Madrid, Spain (2016); Morumbi Chapel, São Paulo, SP (2013); at Centro Universitário Maria Antonia, São Paulo, SP (2006), among other spaces.
